PROFILE

As a certified UX Designer, my passion is to understand the user needs, complexity of the systems and to design according to user expectations.

As a certified ISTQB and experienced Software Test Engineer, I came across various challenges where I proved myself as best, so I want to use those practices, analysis, industry skills as a UX designer as well.

FURTHER EDUCATION

Certified UX Designer | Career Foundry | March 2019 – Till today | **'Connect Experts' app**

Focus: User research, Interaction designing, Usability testing, UI/Product design

Project: 'Connect Experts' is an app to connect coding experts instantly via chat and audio or video calls.

- Did competitive research to find out the competitors.
- Conducted User Research and Surveys to know the user needs and goals.
- Created user personas to understand user behaviors, goals, frustrations, preferences, pain points etc.
- Created user flows and user tasks, did card sorting to refine the sitemap.
- Created paper sketches (Low fidelity wireframes)
- Created Mid and high-fidelity wireframes and created interaction design.
- Released for usability testing and re modified the prototype from user findings.

High Fidelity prototype:
